CONFIDENTIAL REPORT

Report: Merchant-wise Spending Summary for Last Quarter

Generated By: Bob Williams (manager)
Date: 2026-02-13 12:04:59

1. Executive Summary

Intent: Get total spending for each merchant in the last quarter

Business Summary

The dataset provides a summary of spending for each merchant in the last quarter, with a total of 8 merchants analyzed. The spending patterns indicate a varied distribution across merchants, with the top merchant accounting for the highest total spending. The analysis aims to provide insights into merchant spending habits and identify trends.

Key Metrics

- * Total spending mean: \$135,953.55
- * Total spending standard deviation: \$72,104.71
- * Minimum total spending: \$51,018.80
- * Maximum total spending: \$268,286.10
- * Top merchants by total spending: Jazz Telecom, Daraz.pk, and United Hospital

Trend Analysis

The data shows a significant variation in total spending across merchants, with the top merchant, Jazz Telecom, accounting for the highest total spending of \$268,286.10. The standard deviation of \$72,104.71 indicates a wide dispersion in spending patterns.

Recommendations

Based on the analysis, the bank may consider targeting the top merchants, such as Jazz Telecom and Daraz.pk, for tailored financial services and promotions. Additionally, the bank may explore opportunities to increase its market share among the lower-spending merchants, such as those with total spending below the mean of \$135,953.55. By doing so, the bank can potentially increase its revenue and deepen its relationships with existing customers.

2. Data Evidence

merchant_name	total_spending
