1. Executive Summary

Intent: Get total transaction amount per branch per week for last 3 months

1. Business Summary

The dataset provides an overview of total transaction amounts per branch per week for the last 3 months. The data encompasses 29 rows across 3 columns, including branch names, week numbers, and total transaction amounts. This analysis aims to calculate total transaction amounts per branch per week.

2. Key Metrics

- * Mean total transaction amount: \$88,626.24
- * Standard deviation of total transaction amounts: \$51,454.56
- * Minimum and maximum total transaction amounts: \$4,963.61 and \$194,285.78, respectively
- * Top branch by frequency: Main Branch Karachi (10 occurrences)

3. Trend Analysis

Notable observations include the significant variation in total transaction amounts, as indicated by the standard deviation. The data also shows a wide range of total transaction amounts, from \$4,963.61 to \$194,285.78.

4. Recommendations

- To optimize branch performance, the bank should:
- * Monitor weekly transaction amounts at Main Branch Karachi, given its high frequency of transactions
 - * Analyze the causes of the significant variation in total transaction amounts across branches and weeks
 - * Develop strategies to increase transaction amounts at branches with lower totals, such as Peshawar Branch, to improve overall bank performance.
